Are you a native-born Californian?

Not so. Actually, born in mid-west Michigan

Siblings in the family?

Brother and sister

Exactly what occurred at age 5 that led you to believe that you had healing abilities?

I remember that my Mom developed a severe case of hives as a reaction to a fabric softener. After several months of repeated doses of steroids, intermingled with cortisone shots, she found no relief and continued suffering. One morning when she was feverishly scratching her feet, I realized that I could see through the redness on her body to what appeared as dark spots of energy within. I asked my Mom what I should do, and she jokingly said 'throw them out the window', which I did and in 15 minutes all of the red spots were gone, never to return.

WARNIE Greenberg

BY TIMOTHY MOONSTONE

Discovering her intuitive and healing abilities at age 5, Greenberg sought to enhance her awareness of alternative techniques to procure healing and reduce stress leading her to the far corners of the earth in search of Masters in the art of healing.

Was it something that was a bit frightening or did you embrace it?

I absolutely embraced all of this. As I grew older, I began experiencing speaking with the dead. This first happened at a yoga class, which ended with a deep meditation. I clearly heard the voice of a youngster who repeatedly begged me to tell his Mom, "It was an accident. I slipped and fell." At first hesitant, I turned to the lady next to me and told her that I heard a young sounding voice asking that I pass on this particular message. When she heard me say that it was an accident, she burst into tears, explaining that her son had died when he fell off of a roof and she often blamed herself, believing his death was a suicide. The woman was beyond thankful. Now that this was resolved, the boy was able to head into the light.

As a young adult you chose business and finance over healing. What led you to change direction?

I was unfulfilled and found it boring. Most of all, I had experienced terrible back pain my

entire young life due to scoliosis and I was continuously looking for a way to heal myself. I simply had to make finding relief from that never-ending pain a priority.

Traveling the world, were you finding the majority of the "healers" you sought out to be legit?

Legitimate in the sense that each of the healers that I met had their own unique method or healing modality from which I drew insight. None of them had a magic wand or cure.

Was meeting with Doctor Kam Yuen the most significant transformation in your career as a healer?

My first session with Dr. Yuen astounded me when in five minutes the back pain I had endured for 12 years from severe scoliosis disappeared permanently. I couldn't believe it. The minute Dr. Yuen finished making the corrections, I knew this was the most advanced technique on the planet and felt I should do whatever I could to bring it to

others. I was astonished by Dr. Yuen's speed, accuracy, and results. He cut right to the core, on the spot.

Can you describe the Yuen Method in three sentences?

How about we try three paragraphs: The Yuen Method is what Dr. Yuen and I call the "Science of Immediate Results" and is a synthesis of ancient Shaolin temple energetic techniques combined with modern aspects of anatomy, physiology, structural chiropractic, engineering, martial arts, and quantum physics. Your body is best thought of as a biological computer; you are either on or off, or more specifically "strong or weak" to any given subject matter, person, or scenario in life.

The Method is a systematic process to precisely identify and delete hidden blocks/weaknesses on the physical, mental, emotional, spiritual, psychological, and psychic levels, on the spot, without physical contact. Strengthening a weakness is much like flipping a switch on a computer. It is

instantaneous. If you are weak to any given thing, you simply make yourself strong. Of course, the obvious question then becomes, how exactly does one go about identifying their weaknesses?

First, one must identify the root source that is causing that weakness. The Yuen Method provides a systematic process enabling you to use the insight you already have in order to identify the deeper core issue(s) that are related to the problems you may be experiencing in life. It is only by precisely identifying the true root source of the weakness that it becomes an instant possibility to delete the physically manifested symptoms of that weakness as well as any related fears, phobias, and/or limitations.

You do understand that there is a great deal of skepticism about healers?

Yes, skepticism resides in the mind, which most always will align with it being impossible. However, you simply cannot argue with successful results that are medically proven by CT scans and/or MRI, or blood tests. You either continue to have the pain or you do not. It's as simple as that. I too was skeptical when later in life I was diagnosed with a life-threatening illness and never thought that an artery and vein could be reversed, but medical tests proved otherwise.

Will the Method work even if the client is skeptical?

Because the Yuen Method works at the quantum level beyond the conscious, subconscious, and nonconscious levels of

I have had many skeptical clients walk away pain free, confident with success, and void of failures in life.

the mind, results are completely unaffected by a client's skepticism. Belief about whether the Yuen Method works does not impact the results it can achieve. In fact, many people who get the best results have no expectations that it will! This may seem counterintuitive, but it embodies the notion of neutrality, which is vital when utilizing the Yuen Method. I have had many skeptical clients walk away pain free, confident with success, and void of failures in life.

Does a reduction in pain simply result from removing a psychosomatic stress?

Yes, but not always. Our mind and spirit affects our body. I work with 6-levels of influence. Physical, Mental, Emotional, Psychological, Psychic and Spiritual. Each has its own impact on our bodies and each affects our lives.

Financial relief must surely come from a release of stress; dollars simply do not fall from the sky?

I Delete financial weaknesses, the true underlying reasons/causes/sources of money blocks so that people naturally attract financial opportunities, new jobs, and effortlessly connect with influential supportive people to assist them. It makes it easier to obtain when the blocks are deleted.

Can anyone learn this method, or is it necessary that one have a background in healthcare?

Absolutely anyone can learn how to strengthen their own weaknesses using the Yuen Method. Our learners include medical doctors, dentists, veterinarians, as well as lawyers, schoolteachers, and people that have no previous experience in any related field whatsoever. Of course, much like working out once will not keep you in shape for the rest of your life, utilizing the Yuen Method to strengthen your weaknesses is not a one-time deal, but no matter what your training is, or whether you are one simply choosing to be mindful of your own health and well-being, you will most likely experience significant benefits as a result of learning the Yuen Method.

You only have to disregard the belief that it is impossible! The natural ability to strengthen your own weaknesses is actually inside of each and every one of us. You already possess the infinite potential to become your own self-master; you just need to unlock it. The Yuen Method gives you the key!

Have you had success with treating patients affected by Covid-19?

There have been some remarkable results, which can best be reviewed via video presentation on my website at marniegreenberg.com

Had you stayed in finance would you find yourself on Wall Street today?

We'll leave that for another lifetime.
